

Outcome Based Sourcing Model

Approach Paper and Best Practices

Devendra Kumar
Digital Catalyst LLC

October 2020

AGENDA

- Typical Sourcing Evolution Journey (What)
- Outcome Based Sourcing (Why)
- Outcome Based Sourcing (When)
- Outcome Based Sourcing (How)
- Examples of Pricing Construct
- Key Pitfalls and Best Practices (Learn)
- Q&A

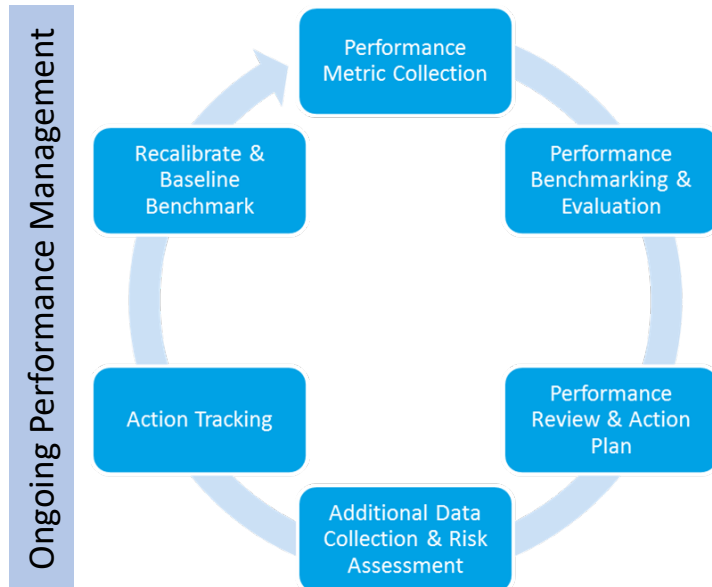

TYPICAL REASONS TO SETUP A VENDOR MGMT OFFICE

WHY

- Inadequate Process Clarity and Consistency
- Optimize TCO and Reduce Variability
- Drive Excellence in IT Procurement – Source from “Right Vendor” at “Right Price”
- Mitigate Risks for Enhanced Value
- Engagement Agility
- Business Value Focus

HOW

- VMO Process Discipline
- Value / Outcome focused Sourcing
- Enhanced and De-risked Partner Landscape
- Contractual Detailing and Agility
- Commercial Alternatives
- Partner Enablement and Performance Management
- Negotiate for Mutual Win
- Service Delivery Measurement – SLAs, KPIs, XLAs

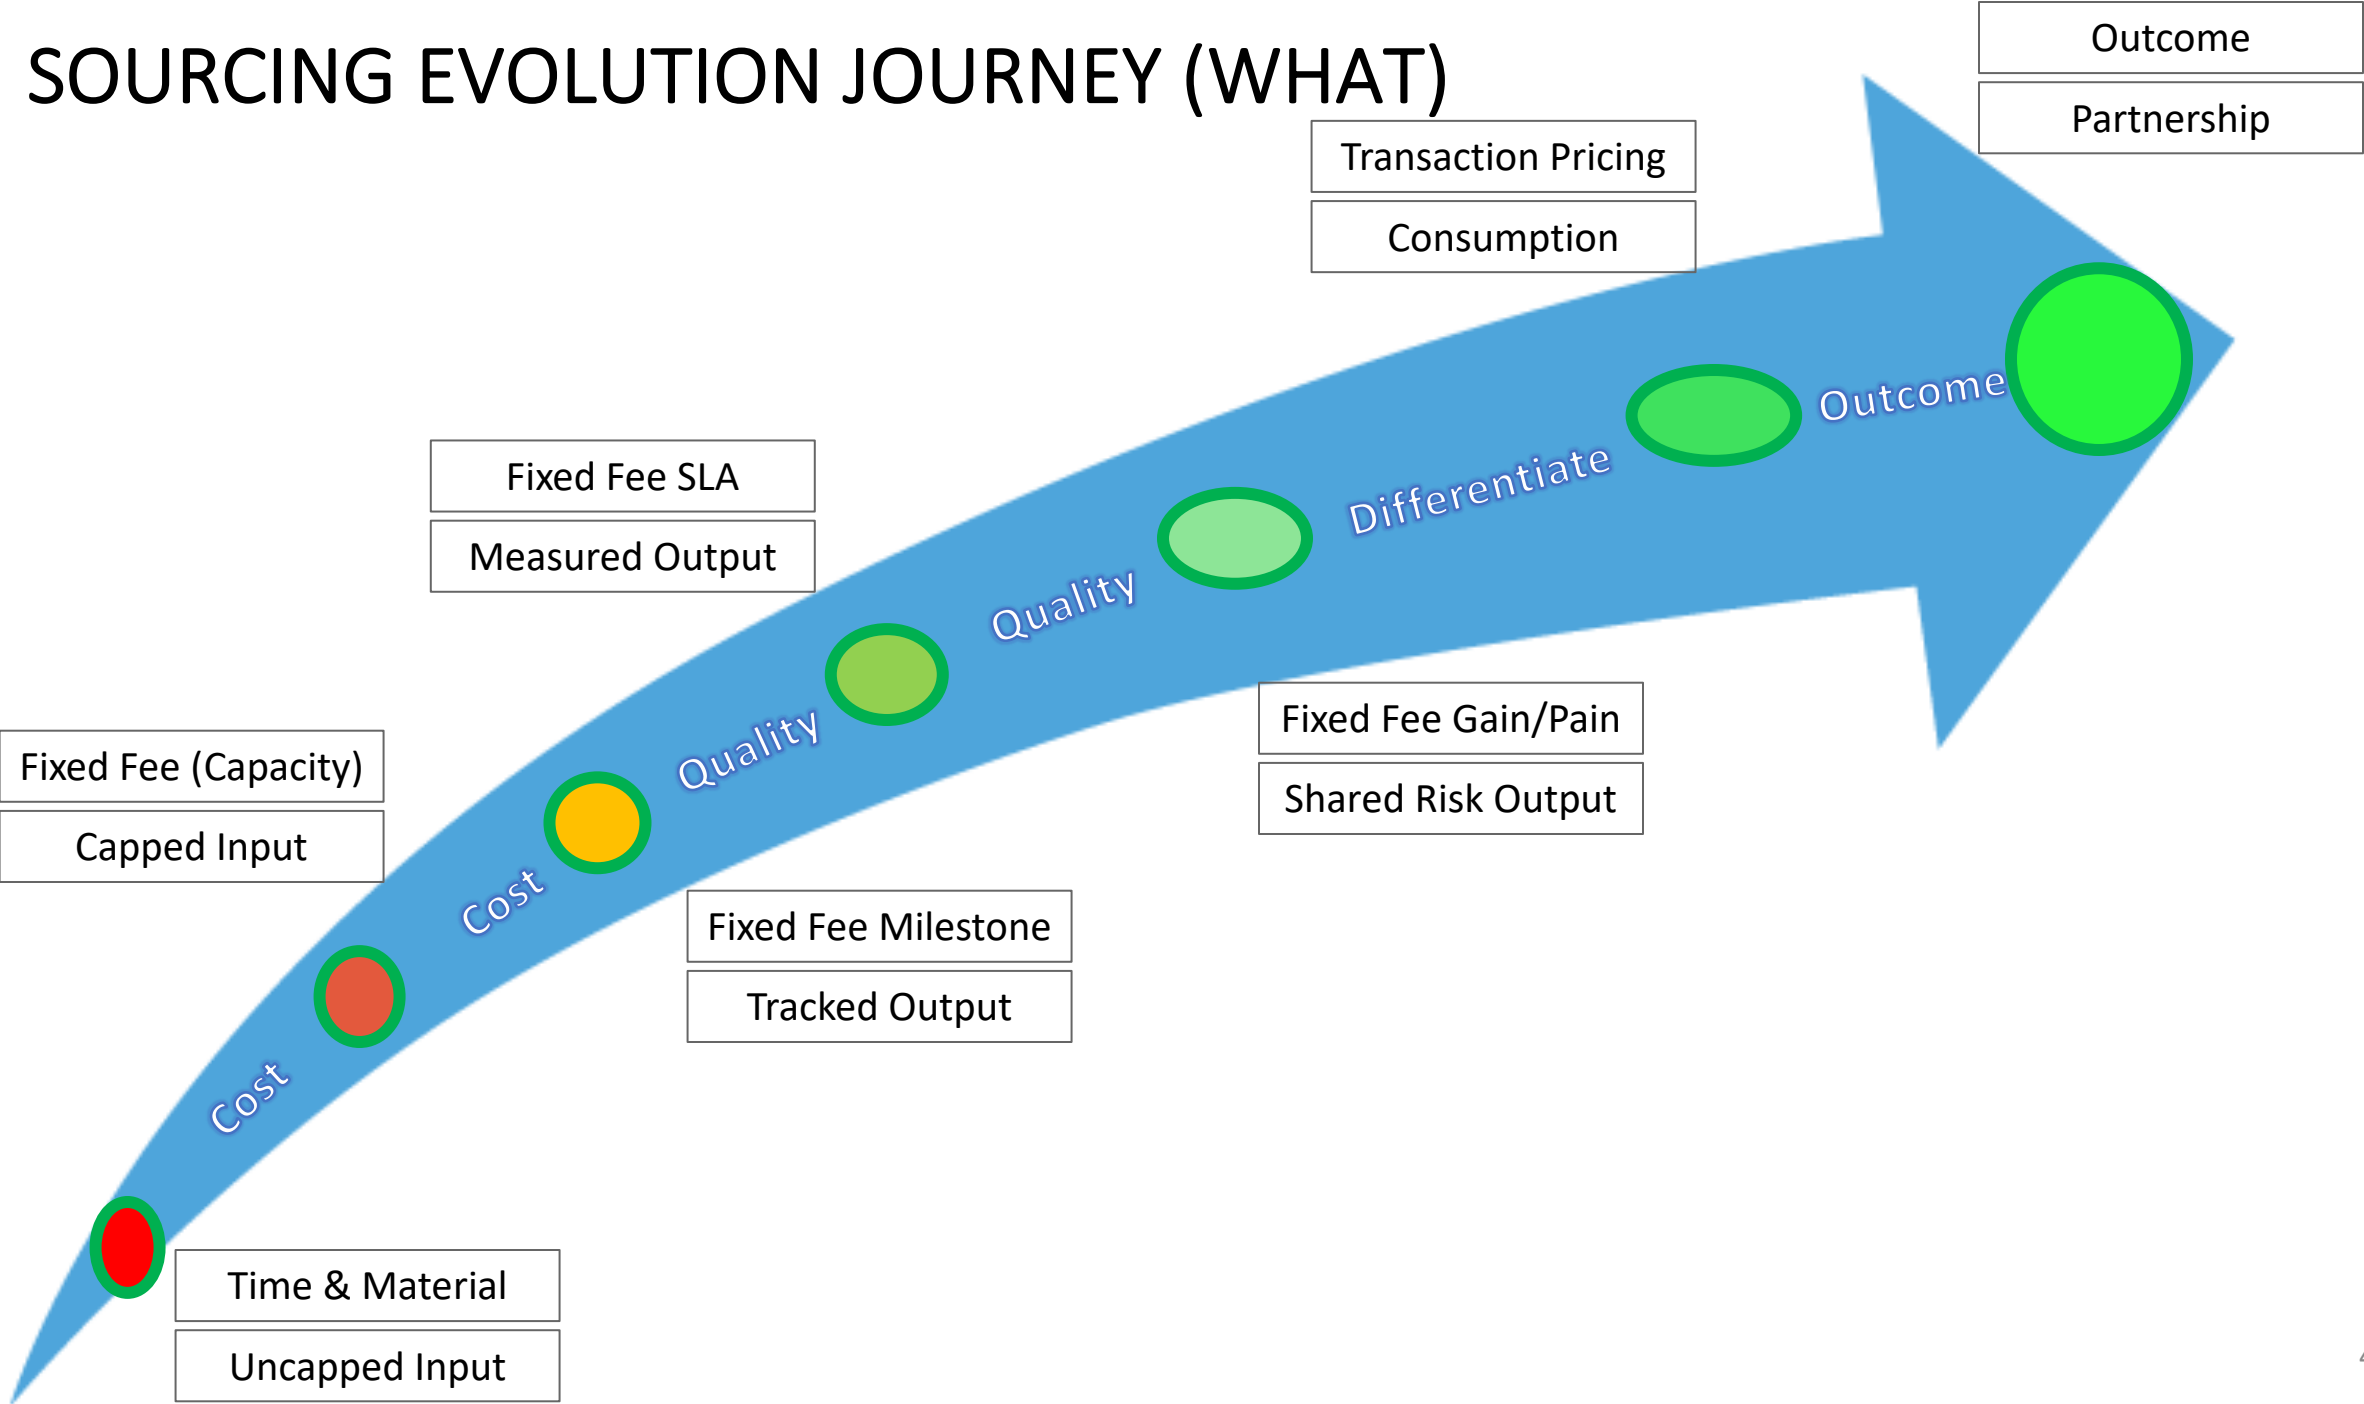

ACCOUNT – THOUGHT LEADERSHIP FRAMEWORK

	2020 Vision	Business Process	Technology	IT Process & Governance	TCO
	<i>Revenue, Profit, Geo Spread</i>	<i>Harmonization, User Experience, User Productivity</i>	<i>B&V Technology strategy, currency, Simplification</i>	<i>CMMI, ITIL, Quality, KM</i>	<i>"Run" Down, "Build" Up</i>

Propose					
Implement					

*Expectation:
At least 1 line items in each box every quarter.
Each line item pre-approved by Portfolio Manager*

SOURCING EVOLUTION JOURNEY (WHAT)

Input vs output vs outcome

Resources used to deliver outputs

INPUT

- Traditional
- Resources
- Time & Material
- Instructional
- FTEs, \$\$, Devices

Measurable functionality delivered to achieve outcomes

OUTPUT

- Matured
- Provision to execute business function
- Fixed Fee
- Milestone driven
- Predefined; Tracked
- Order entry, Pay

Objectively measurable impacts delivered by Partner

OUTCOME

- Modern
- Deliver efficiency and outcome of business function
- IT Outcome
- Partnership / Risk & Reward
- # orders processed, # payments made

Examples of outcome based sourcing

Examples	Type of Outcome (Business / IT)
% of Orders successfully booked at 1 st attempt	Business
Number of AP Invoices paid on Due Date	Business
Cost of maintaining an Employee record	Business
Cost of a customer Dispute successfully resolved	Business
Cost of each qualified Lead from a marketing campaign	Business
Application Upgraded to Current-1 version within 3 months	IT
Cost of Tech Support per employee	IT
% Application Availability	IT
Count of P1 and P2 issues experienced	IT

Outcome Based Sourcing (Why)

- 360° Tri-party (Business, IT, Partner) expectations aligned
- Shared risk and success
- Predictable cost
- Engagement agility for fluctuation in Business performance
- Drives innovation
- Motivates Partner to maximize business outcome to maximize its financial gain
- Motivates Partner to adopt innovation, better practices, technology advances to drive efficiencies

Outcome Based Sourcing – Prerequisite (When)

Sponsorship

- Business Unit Head, CFO, CIO

Drivers

- Core Team (Process Owner, System Owner, Vendor Manager, Change Manager)

Cultural Readiness

- Mutual respect; intent to partner; Relinquish Control; Give up Prescriptive Approach; Risk Appetite; Learn and Evolve

Internal Maturity

- Outsourcing Maturity (Fixed Fee Pain/Gain or Transaction Pricing); IT Process Maturity

Outcome Use Case(s) Identification and Qualification

- Fully Documented Process; SMART Outcomes - Specific, Measurable, Attainable, Realistic and Time Bound

Identified Partner(s)

- One of Current Partners preferred

High Level Action Plan

- Incremental Approach

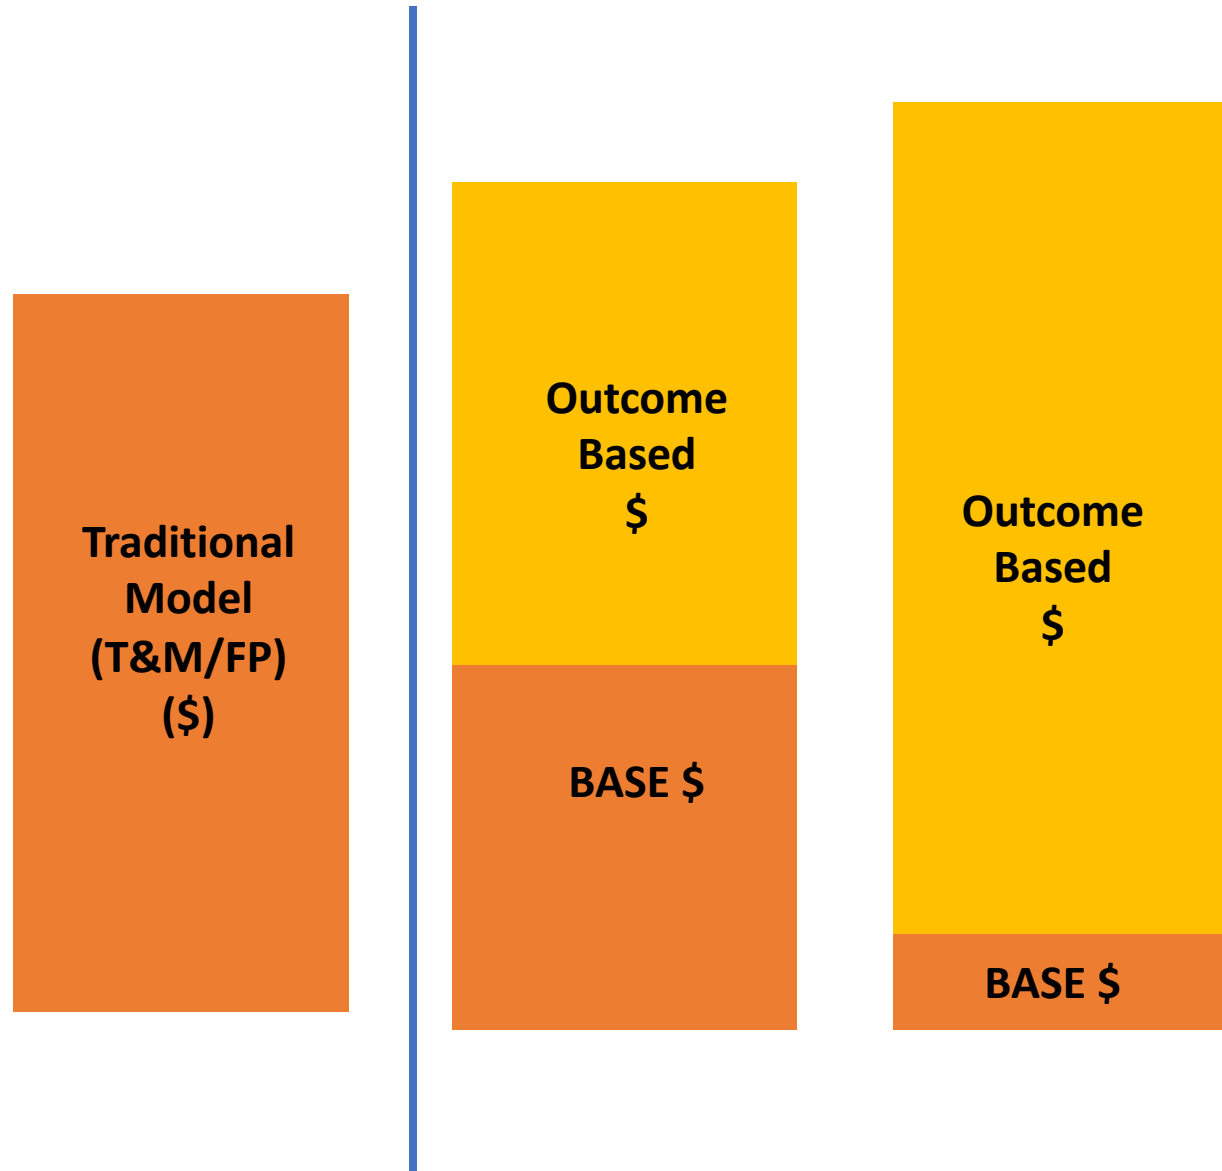

Risk Assessment

- Business Continuity; Compliance; Financial; Brand

Outcome Based Sourcing (How)

Examples of pricing construct

Variants:

1. Capped Outcome Fee (e.g. lower of 15% or \$1M)
2. Min-Max Outcome Fee Threshold (e.g. 3% to 12%)
3. Capped Duration (e.g. 24 months)
4. Capped Occurrences of Outcome (e.g. first 200 occurrences / year)

Key Pitfalls / Challenges

Potential Pitfall	Consequences	Best Practice
Inadequate Sponsorship	Lost Purpose	Seek Top-down Sponsorship Upfront. Governance.
Lack of Cultural Alignment / Readiness	Outcome Not Delivered.	Mutual Respect. Intent to Partner with Win-Win Mindset. Relinquish Control with Checks and Balances. Give up Prescriptive Approach to Innovate.
Improper Outcomes	Outcome Not Delivered. Financial Impact.	Define Outcomes are SMART and MECE.
Lack of RACI Clarity	Outcome Not Delivered. Financial Impact.	Contractually Bound Detailed RACI.
Lack of Trust on Partner for Outcome	Outcome not Maximized.	Collaborate; Communicate. Innovation Board; Governance.
Risk (Business Continuity, Financial) Not Assessed	Outcome not Delivered. Financial Impact.	Define Business Continuity Plan (BCP). Contractually Bound Liabilities.
Over-Ambitious, Aggressive Timing	Lost Purpose.	Transition and Try-out; Phased Approach; Governance.
